Customize the light to your needs.

Lumicanto luminaires in the 6-20W version feature a wide range of versions available in a single luminaire. Thanks to the possibility of adjusting the colour temperat6ure in the range: 3000K / 4000K / 6000K , 8 different power settings in the range: 6-20W and the 2 types of reflector available as a set: 36 and 60° offers 48 different setting versions. The colour temperature is adjusted using a switch on the power supply. Power is set via a DIP Switch also located on the power supply, which can be accessed quickly and easily by simply lifting the safety flap. Thanks to their versatility in terms of colour, power and beam angle, luminaires from the LUMICANTO series are ideal for illuminating office spaces, shopping malls, museums and modern interior design.

The high Ra>90 coefficient is ideal for displaying illuminated surfaces and objects, ensuring faithful colour rendering. The highest-quality components used, such as didoy Bridgelux and the KGP power supply, guarantee high luminous efficacy and durability.
